

Anuj Prajapati

Aspiring Full Stack Developer

Career Objective

A highly motivated and passionate developer-in-training with a strong foundation in web fundamentals. Eager to apply my skills in a challenging environment that fosters growth and innovation, while contributing to impactful projects.

Projects

Personal Portfolio Website

Tech Stack: HTML5, CSS3 (Flexbox, Grid), Responsive Design

- Developed a personal portfolio using modern, responsive CSS techniques. Focused on semantic HTML for accessibility and SEO best practices.

Product Landing Page

Tech Stack: HTML5, CSS3, CSS Box Model

- Designed and built a complete, responsive landing page for a fictional product. Mastered the CSS Box Model for precise layout and spacing control.

E-commerce Product Page

Tech Stack: HTML5, CSS3

- Built a visually appealing product listing page with a strong visual hierarchy. Planned for future JavaScript interactivity (e.g., "Add to Cart").
